Projects

A Simple Rescue Game

This was a group project intended to learn the object oriented features of Java. The link showing the simulation: <https://www.youtube.com/watch?v=ulJzwr5VlJI>

SQL Shopping System

The aim of the project was to work with and create Databases from scratch. Starting by an EERD then translating it to relational Scheme. We used Microsoft SQL Server to code the whole scheme along with its functionalities by dividing the system into procedures.

Node JS website
